MEMORANDUM FOR: Chairman, Training Board of Visitors

Bill:

Re next quarter agenda --

There may be value in our staying with the Training Officer matter. I'm not sure in my own mind just how, but by keeping the pressure on we may force a more effective participation in overall career management/personnel development.

I think we must continue to monitor management training and OTR's role in Information Science.

As possible new areas for the Board, suggest we get into the quality of people assigned by other Directorates for teaching jobs and foster the concept that such assignments are to be sought as honors and recognition of competence rather than avoided as a kiss of death.

If the DCI intends to push for rotational assignments it may be desirable to develop some short, intensive briefing or orientation courses/seminars to prepare people for the new societies to which they are being rotated. This may be only a Board discussion item but worth that at least.
